LOCAL GOLF ENTHUSIASTS TO PULL OFF TOURNAMENT

A number of members of the Dornick Hills Country club got together Friday night at the State National bank and perfected plans for a golf tournament, which will no doubt be very interesting to the club members. Those who met Friday night drew lots for opponents, the following being the result:

A. C. Hall vs. Capt. Hutchinson.
H. D. McCulloch vs. C. L. Anderson.
B. H. Dibrell vs. O. W. Deveny.
John Edwards vs. W. D. Potter.
Carl Tietgens vs. Harley Harrell.
Russell Brown vs. Joe Echols.
Vellie Suggs vs. Joe B. Champion.

After the first round of games have been played, the winners will again meet and draw lots for their opponents. The first games will probably all be played next week, and the tournament is to end not later than Sept. 1. These contests will probably be made a monthly feature at the club, and interest in the royal game will no doubt be greatly augmented.

The club will have a big handicap tournament Monday, Sept. 6—(Labor Day).

NEW TANKS FOR STORING OIL FIRE-PROOF

SHAWNEE MAN TO INSTALL INVENTION AT SAPULPA — CONCRETE UNDERGROUND STORAGE CHEAPER.

Sapulpa, Okla., Aug. 14.—A new patent method of storing oil in the field and at the same time preventing the enormous loss from lightning and other fires has been shown to the Commercial club and a proposition for the manufacture of the necessary patent appliances submitted to that body, and accepted.

The tank consists of a shallow basin hollowed out of the earth and lined and topped with a fire texture of concrete. The basin will be 150 feet across and hermetically sealed at the top except for a manhole in the center which will be kept closed. The vent pipe will come out of one side and run along the ground for several hundred feet and then run up into the air some twenty or thirty feet. At the top of this pipe will be a miner's gauge under which no flames could go, but besides that precaution there will be a valve at the end of the first section of the vent pipe just before it turns up, and this trap will be set for a pressure of thirty pounds. The pound pressure, however, will not operate under ordinary circumstances, but this trap will be held up by a string attached to a lead trip on top of the vent pipe. In case of fire this lead seal would melt, drop the string and close the vent trap, thus stopping all fuel for the fire until the 30-pound pressure in the tank raised the trap again. At the same time that the lead seal dropped a red flag would go up on top of the pipe to warn the man in charge that something was wrong. At night a bell would ring in his shanty.

YOUNG WOMAN SECURES \$10,000 JOB ON FARM

Chicago, Ill., Aug. 14.—Mary Smith, 23 years old, was selected today for the \$10,000 job on the McHenry county farm of "Uncle Jimmy" Pankhurst and Mrs. Pankhurst.

Miss Smith is an orphan, also a trained nurse, and at first was reluctant to accept the position, which carries with it \$3 a week and a bonus of \$10,000 after the death of the Pankhursts, because of the publicity attending it.

The selection was made from hundreds of applications by Mark Crawford of the bureau of immigration, to whom the task was delegated by the lonely old couple on the farm who wanted some one who would be their "sympathetic companion" to the end of the chapter.

Mary Grady was the first selection made by Crawford, but this choice was rescinded because Mrs. Grady, it is said, failed to qualify physically.

SAYS ENGLAND WILL EMPLOY SWISS MILITARY SERVICE

London, Aug. 14.—The dean of Durham does not believe that the war will result in general disarmament and universal peace "when the war drums throb no longer and the battle flags are furled." In an address at West Hartlepool he predicted that in England the certain consequence of the war would be "the universal obligation to military service" on the Swiss model.

"Never again," he said, "can we run the risk of having the whole fortunes of our land and empire left to voluntary effort, however widely distributed and magnificently rendered."

WASTING THE PEACH CROP IT IS SAID

COUNTY AGENTS CLAIM GROWERS ARE CULLING TO TAKE ADVANTAGE OF BETTER MARKET CONDITIONS.

Muskogee, Okla., Aug. 14.—With perfect weather for the ripening and picking of peaches, growers throughout the county are rushing their shipments but the waste will be enormous this year. In order to secure a market the growers are culling out all but the perfect fruit and it is estimated by government experts, who have just completed a tour through the eastern part of the county and through the southwest portion, that not more than thirty per cent of the crop will reach eastern markets.

Five cars of peaches were shipped out of Checotah Wednesday, the peaches selling at 50 cents a bushel. Two cars of extra fine peaches were shipped out of Okla. The price is not known. Although there are buyers in Muskogee offering only twenty-five cents per bushel, Checotah growers claim that a Topeka buyer is paying them fifty cents per bushel. Three cars were shipped out of Muskogee Thursday. Most of the Arkansas and Oklahoma crop is being shipped to Kansas City or St. Louis and the finest quality is sent on to eastern cities.

Growers of Haskell and Porter, following the example of Muskogee growers, have united and will can their fruit at home. The canning factory will soon be in operation, perhaps by Saturday.

GOVERNMENT'S BUFFALO HERD IS INCREASING RAPIDLY

Washington, Aug. 14.—The government's herd of buffalo on the Wichita National Forest, in Oklahoma, which is also a federal game preserve, has been increased by the arrival of ten calves, according to a report received by the forest service from the supervisor in charge. The herd, which now comprises sixty-two specimens of the almost extinct bison, is in good condition, says the supervisor, and promises to continue increasing at a rapid rate.

Eight of the calves are females, bringing the number of heifers and cows up to thirty. The bulls number thirty-two and have been placed by themselves in a pasture which has just been fenced in for them.

Three years ago the buffalo herd on the Wichita Forest was little more than half as large as it is now. It is said that the other game animals in the preserve, including the elk and antelope, also are increasing, due to the protection afforded, not only against hunters, but against wolves, wild cats, and other predatory animals, which committed serious depredations from the establishment of the preserve in 1905 until measures were taken to stop them. In protecting the game from predatory animals, the wardens and forest officers are also promoting the interests of local stockmen, who graze several thousand head of cattle on certain allotted areas within the preserve.

turned Thursday from a two-weeks' visit to his old Kentucky home.

The action of the board that Wilson referred to was the removal of W. C. Canterbury from the presidency of the Durant normal, which created the biggest political fight since the advent of the new administration.

"If anything has been said to the effect that I left the state to dodge that meeting, it is a deliberate lie," Wilson said with great vehemence. A rumor to this effect was current at the board meeting.

Wilson said that he had never been in favor of the removal of Canterbury, or Griffith from the Weatherford school, although he made the suggestion to the board that committees ought to be appointed to investigate. However after making the suggestion, Wilson said he voted against the naming of the committees, for the reason that he was not in favor of the removal.

The state board, explaining their hurried meeting the day after it had happened, said they had not met to "put anything over" Wilson, but had called the meeting simply because the committees were ready to report, and that Wilson's absence was merely a coincidence.

INVESTIGATES STOCK DISEASES

Frank M. Gault Makes Visit to Southwest Oklahoma.

Oklahoma City, Okla., Aug. 14.—Frank M. Gault, president of the state board of agriculture, has this week investigated a number of cases of glanders among horses in the counties of southwest Oklahoma. He also looked into the hog cholera situation in that section and investigated several cases of blackleg among the cattle there. The trip was made personally, in order that the head of the board may be in position to direct the work of eradication so far as possible. Southwest Oklahoma is understood to be troubled in a number of places with an unusual number of cases of these diseases and it is the intention of the board to make extraordinary efforts to combat them. Among the counties visited were Roger Mills, Beckham and Grady.

When you yawn a good deal in the daytime, feel dull, aches and want to stretch frequently, it is an unmistakable symptom of malaria, and unless you do something at once, you are booked for a spell of chills. HERBINE is a chill medicine that will prevent or cure the disease. It drives out the impurities on which the malarial germ thrives, strengthens the liver and cleanses the bowels. Price 50c. Notice of Application for Parole.

Notice is hereby given that I will on the 24th day of August, 1915, make application to the governor of the state of Oklahoma for a parole from a conviction for forgery in the May term of the district court of Carter county, Oklahoma.

The grounds upon which I will make this application is that I was not of sound mind when the offense was committed.

Dated this 24th day of July, 1915.
